Celebrate Sustainably Workshop
~ Nov. 12th 2012 ~

Cards and Invitations:
❖ If possible, send your holiday and special occasion cards online. This not only saves resources, time and effort, but gives you the opportunity to help others in the process. A couple of great sites are:
  www.care2.com
  www.pleasantrees.com
  www.celebrategreen.net
❖ When hosting an event, use online sites to send out invitations. They will also be able to help you keep track of who received the email invitations, who opened them, who RSVP’d and also is able to bring a dish 😊
Some online evite websites are:
  www.evite.com
  www.pingg.com
❖ Encourage your businesses and faith communities to utilize these online services for their correspondence.
❖ If you still like to make your own cards and invitations, be sure to use recycled and recyclable materials.
❖ Reuse any old cards, papers, mailings for interesting backgrounds and decorations for homemade cards. Have a container easily accessible so that these materials find their way into there instead of the garbage!
